ALL AGOG FOR JULY FIRST

A largely attended meeting of those vitally interested in the sports programme to be held at the new Blairmore stadium on Wednesday, July the first, was held at the Cosmopolitan on Tuesday evening.

The meeting was presided over by the president of the Blairmore Amateur Athletic Association, Mr. R. W. H. P. Kinney, with Mr. A. J. Kelly in his capacity as secretary.

At this meeting plans arrangements were made in connection with the programme and the various committees were appointed.

The meeting was informed that the new 440-yard track had been re-graded and rolled to a hard surface and that same was now in first-class shape. Two new sections of bleachers will seat an extra two hundred people. Post and rail fences are being erected all along the outside of the home stretch, providing splendid standing room for spectators, and it is the intent on the part of the association to keep everyone off the track and infield, except the officials and competitors. This will give all competitors every chance to exhibit their ability, without being crowded, and at the same time every spectator will be enabled to have a full view of the whole track and infield.

Refreshment stands will be conducted by the members of the Ladies' Softball Club and the Cricket Club. The Town Council are laying a one-inch water line into the grounds from the arena service line, which will enable the groundsmen to sprinkle any part of the infield or track.

Entries have already been received for field events from Coleman, Blairmore, Frank, Bellevue, H. Ernest, Michel, Cranbrook, Coalhurst and Lethbridge, while the baseball committee have received entries from Coleman, Bellevue, Blairmore and Tod Creek. The female ladies' softball team will be here for a tournament, and reports would indicate that they are able to put up an excellent showing.

Athletes from all over the district have been training on the new track and many favorable comments have been heard from them on the improvements made. In this connection, the committee are desirous that those who intend entering the hurdle race have a work-out at any time prior to the sports day. The ho-hos will be available, upon application.

Every cent taken in for sport in Blairmore is being handled carefully and the surplus, if any, will be used in the stadium. It is the proud boast of leading sportsmen in the town that Blairmore will have an athletic park second to none in the province before many more months have passed.

The following are the committees: softball, S. McDowell and J. Rossi; baseball, J. M. Ine and E. A. Harper; cricket, J. W. Whitehead and N. Oliver; First Aid, M. H. Congdon; lunch, G. Meffan; field secretary, P. Montalbet; assistant field secretary, J. V. McDougall; general field committee—S. G. Bannan, J. Ruda and E. Neville (judges); W. H. Chuppel and J. A. McDonald (starters); W. Kerr and W. A. Beebe (timekeepers); W. J. Fisher, N. Oliver, D. A. Howe, G. Sangster, S. Patterson and D. Kemp, senior (track stewards); D. A. Howe and Joe Rossi (property).

Citizens are asked to make this one day a holiday and to turn out en masse and help make the programme a success. The West Canadian Band will be in attendance at the opening and closing of the field programme, and will render selections at intervals during the day. The programme starts promptly at 10 a.m., and will be followed by a grand dance in the arena at night.

Uncle Bill isn't very excited about this newly invented lie-detecting apparatus. He says it's old stuff to him—he married one.

DEATH OF JOHN F. IRVINE

The death occurred at an early hour on Monday of John Frederick Irvine, a long-resident and highly respected citizen of The Pass, at the age of fifty-nine years and ten months.

Mr. Irvine had been failing in health for some considerable time, suffering from weak heart; but the end came rather unexpectedly. On Sunday afternoon, his condition was such that he desired an outing and was taken for an auto ride as far west as Homer.

He is survived by a loving wife and two young children.

Funeral took place from the Crow's Nest Undertaking Parlor last evening, and following an impressive service held at the United Church, the remains were laid to rest in the Blairmore Union cemetery.

DISCARDED BRIDGE MAY BE SECURED BY BLAIRMORE

Following the application of the Blairmore Town Council to have the bridge immediately east of Blairmore, which by the new diversion of the river and highway is being rendered discarded, word has been received from the Department of Public Works to the effect that the town can have the bridge for replacement on the Old Man River crossing at Fifth Avenue, providing the Town will undertake cost of removal and replacement.

This bridge is of steel construction, one large span, and such a bridge is urgently needed at this point. Following the installation of a suitable bridge, the Town will be in a position to go ahead with completion of the avenue up to the main road allowance fronting the south side of both the Roman Catholic and Protestant cemeteries, which by the way, constitutes the north boundary of the town.

This matter will likely be considered at the next regular or special meeting of the council.

BLAIRMORE PUBLIC LIBRARY

New books placed on the shelves this week are:

Juvenile Fiction—"What Katy Did," by Susan Coolidge; "Arnold's Little Brother," by Edna A. Brown; "Scholarship Girls," by Josephine Elder.

Fiction—"Brodie and the Deep Sea," by I. A. R. Wylie; "House of Balhazar," by Wm. J. Locke; "A Little Princess," by Burg; "Paul Patton," by F. Moresi Crawford; "Perfume of the Rainbow," by L. Adams Beck; "A Certain Dr. Thornydyke," by R. Austin Freeman; "Passion and Peat," by Alphonse de Chateaubriant; "Week End Library, 1930," "Year of Grace," by Margaret Ayer Barnes; "Children of the River," by Harris Dickson.

Non-Fiction—"Romance of C.P.R.," by R. G. MacBeth.

The Library hours are Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. We thank Mr. and Mrs. Germain for a contribution of eight volumes which will be placed on the shelves next week.

The winner of the L.O.D.E. Canadian History prize for 1931, will be announced at a public meeting to be held in the Moose hall on Friday, June 26, 1931, at 8 p.m. The chair will be taken by Mr. G. A. Vissac and the chief speaker will be Mr. Ha'kett of the C.P.R. A splendid programme of music by pupils of the school will be an attractive feature of the evening. Admission is free to all.

The Swedish steamer Korsholm recently put into the harbor of St. John's, Newfoundland, with cargo on fire. As the greater portion of the cargo consisted of flour, the ship's hold soon became an awful mess, as the water poured into it, turning the flour cargo into a dough. The entire cargo was loaded on another ship and dumped outside the harbor.

WORLD HAPPENINGS BRIEFLY TOLD

Twelve Communists, supposedly including several important leaders, were executed at Hankow, China, by order of the government.

Allegations of dumping of Russian clothing in Canada have resulted in demands that Canadian suit makers get more tariff protection. Donald B. MacMillan, explorer, says he doubts if he will carry out his announced plans to fly from Labrador to London this summer.

Admiral of the Fleet, Sir Roger Keyes, hero of Zebrugga and the man who held the Straits of Dover during the Great War, has closed his active career in the Royal Navy.

After years of danger in the air, Antoine Pallard, aviator, died in Paris at the age of 35, following an operation for appendicitis. He held many records.

The proposed rendezvous in polar wastes between the Graf Zeppelin and Sir Hubert Wilkins' submarine "Nautilus" has been called off because of the breakdown of the undersea boat.

The report of Hon. Herbert Marler, Canadian minister to Japan, and possibilities in the Far East, will not be presented to the House of Commons.

Felix A. Sullivan, an embalmer, who officiated at the funeral of Queen Victoria and embalmed the bodies of President Grant and President Garfield, died at St. Louis, recently in his 88th year.

The Bank of Montreal agency in New York recently received a shipment of \$3,000,000 in gold from Canada. The shipment was the first to be received from Canada since mid-winter.

Clayton Scott, chief pilot for the Gorat air transport, brought his Amphibian plane down onto Elliott Bay, returning from Juneau with the record of having made the first non-stop flight to Alaska by night.

Shows Faith in Canada

Sum Invested in Her Industries Is Over Six Billion

The impressive fact that the sum invested in Canadian industries is no less than \$6,350,000,000 is mentioned by Hon. G. Howard Ferguson, Canadian High Commissioner to Great Britain, in a foreword to the "Canadian Resources Supplement" published by the Financial Times of London, England. Still more impressive, he says, is the fact that sums contributed from outside sources are held in proportion of 61 per cent. by the United States and 35 per cent. by Great Britain.

Detailing a few facts to indicate the "extraordinary resilience of Canadian industrial activities during the period of acute world-wide depression," Mr. Ferguson records as another impressive fact that building contracts during the first ten months of 1930 totaled \$400,000,000. He says, "this hardly looks like fatalism or resignation to depression. Building contracts on this scale are as reliable an indication of Canadian prosperity as any that can be found."

A chair of geography has just been founded at Edinburgh University.

St. Lawrence Route Is Popular Enterprise and Confidence in the Development of Canada's Future

The growing popularity of the St. Lawrence route from America to Europe has received another fillip with the placing in commission of the "Empress of Britain," said by competent authorities to be the finest vessel afloat. On her first trip from England to Canada the "Empress of Britain" carried a very notable passenger list and marked another step forward in the popularization of the St. Lawrence route to Europe.

Although not the largest passenger vessel ever launched—the "Empress of Britain" has a gross register of 42,500 tons—the new vessel is said to present the latest developments in nautical architecture, designed to insure comfort, safety and speed. Among innovations are a full-sized tennis court, a squash racquet court, long distance telephone in every first-class apartment, and every room an outside room. Her speed will enable her to make the passage between Southampton and Quebec in about five days.

The St. Lawrence route has the advantage of furnishing an ocean journey to Europe with the first thousand miles consisting of placid water enclosed by magnificent scenery. The new vessel will reduce the open-Atlantic period of the voyage to 3½ days. She is the property of the Canadian Pacific Railway Company, and may therefore be fairly claimed as an evidence of Canadian enterprise and confidence in the development of Canada's future.

Amend Copyright Act

Bill Drafted To Conform With Rome Convention Of 1908

Parliament has given third reading to a bill amending the Copyright Act, approving the final three clauses in a short time. Nine clauses were passed in committee. The bill went on to the senate.

Piloting the bill through the House, Hon. C. H. Cahan, secretary of state, said he hoped a thorough revision of the copyright law might be undertaken but indicated it would require "a great deal of time."

The bill is drafted in order to bring the present copyright law into conformity with the Rome convention of 1908, and Canada is required to deposit this country's adherence to that convention by July 1. In general its purpose was to extend the provisions of the copyright so as to embrace radio broadcasting and cinematograph reproductions, those developments not being in existence when the original Rome convention was drafted.

As the bill operates, individuals who have not registered their works will not possess the right of suit in court in respect of such unregistered works. In the case of assignment having been made, only such assignments as have been registered will vest in the assignee whatever court rights are established. Unregistered assignments will have no status before the courts.

Organizations to whom copyrighted works have been assigned and who charge fees for the performance of such works will be subjected to government regulation if, after an enquiry by a commissioner under the Enquiries Act, it is shown that excessive fees are being charged or that the organizations are operating detrimentally to the public interest.

Oil Production in Alberta

April Showed Fifty Per Cent. Gain Over Same Month Last Year

Oil production in Alberta for the month of April was more than 50 per cent. ahead of the same month last year. According to figures given out by Hon. R. G. Reid, Minister of Lands and Mines, the four producing fields in the province gave a yield of 142,544 barrels, as against 92,404 barrels in April of 1930. The heaviest item in the month's production was 132,633 barrels of naphtha from the Turner Valley wells, this alone being an advance of nearly 50,000 barrels over the corresponding month last year. Turner Valley also produced 1,626 barrels of light crude oil, while light crude from Red Coulee was 5,609 barrels. In the heavy crude class, Wainwright contributed 1,306 barrels, and Ribstone 270 barrels.

A Real Patriot

It was a beautiful Sunday morning, Simpson, having finished reading a paper printed with an invention made in Germany, set out with his wife for the meeting house of faith found in Palestine. Contemplating the beauty of the land, which had been discovered by an Italian in the employ of a Spanish queen and musing on the liberty it possessed thanks to the help of a French navy, his bosom swelled with pride. "Thank God," said Simpson fervently in a language imported from the British Isles, "I am a one-hundred-per-cent. American."

Forest service officers are watching the development of improved types of spark arresters which are designed to prevent sparks from locomotives from starting fires.

Low Price For Eggs

Alberta Farmer Receives 39 Cents Net For Case Of 50 Dozen

Eggs at one and three-tenths cents a dozen.

That is the price a farmer of the Peace River constituency of Alberta recently received for thirty dozen eggs, according to a letter he has sent Donald M. Kennedy, member of parliament for Peace River.

The farmer lives at Falher, Alberta. Of his egg shipment seven dozen were graded first, 21 dozen second and two dozen mixed. A creamery at Westlock, 260 miles distant, paid \$1.44 for the consignment the farmer writes, from which \$1.05 was deducted for shipping and other expenses, leaving 39 cents for the farmer.

Should Study French Language

Earl Of Bessborough Says Wider Knowledge Of Language Is Great Asset

Earnestly appealing for a wider knowledge of the French language throughout Canada, His Excellency the Earl of Bessborough told students of Ashbury College at their closing exercises that he would not have experienced the supreme happiness of marrying his wife if he had not been able to speak her language.

"Forty per cent. of the citizens of Canada are French," the Governor-General said, "and if you can't speak French you are totally precluded from an exchange of ideas with fine citizens, as fine citizens as ourselves."

A multiplate camera that can be concealed in the palm of the hand and holding 45 plates has been perfected.

Gandhi Prefers Humble Quarters in London

Chooses To Live In Garret Among the Poorer Class

Mahatma Gandhi, who will leave India about the middle of August to attend meetings of the federal structures committee in London, England, has decided that when he gets there he will live among the most humble mendicants of Kingsley Hall, London's east-end home for the poor.

While India's other delegates to the round table conference install themselves in the city's hotels or the castles of their friends, he will be in a garret among surroundings not unlike those familiar to the people who reverse him so highly at home.

If the weather permits he will not even alter his habitual costume of white shawl and thin cotton loin cloth, but if it is cold he will wear a homespun coat and the conventional European trousers. When he appears before the King and Queen it will be in the Indian costume with shaven head and bare feet.

Despite the problems of state with which he is concerned, one of his major considerations at the moment is how he will obtain fresh goats' milk in London, England, and on the way there. Contrary to reports he cannot take his own flock of goats which are milked twice daily in his presence, and it is likely he will instruct Miss Slade, his British attendant and disciple, to take along a supply of condensed milk.

Larger Boats On Welland Canal

Boats up to 450 feet in length will be allowed to pass through the Welland Ship Canal, commencing this month, Chief Engineer Alex. Grant announced. Previously regular passage has been restricted to boats of the St. Lawrence size, 257 feet, any boats in excess of that have required a special pass. This new regulation will cover all classes of vessels, Mr. Grant announced, but the restriction to 18 feet draught will remain in force.

CHAPTER XX.—Continued.

Angela's hand, resting on her steamer chair not far from Nick's, caught his suddenly in a frightened clasp. He turned toward her, startled, but she had already drawn it away, and was looking out to sea. "Any of you been there?" persisted the Colonel cheerfully. "No, no, no," said Angela, her face queerly breathless. "No, I never heard of the place."

"Quite a yarn," went on the Colonel. "These Hallidays (just a man and wife, I believe), were evidently a queerly assorted pair. He was a quiet chap—professional man of some kind, and crazy about his wife. Never looked at anybody else. What was different. Wasn't happy without a man at her heels. Before the summer was over some called her a murderess, and—"

"It's getting awfully chilly," broke in Angela. "I think I'll go for a wrap." "She would have risen, but Amy Meyer tossed a sweater into her lap. "Take that," she yelled, the air's so breathless. "Do go on, Colonel Nowell; this little bit to be exciting." The Colonel obeyed eagerly.

"They hired the Burgess place, a fine big house out by the cliffs. The cottage next to it was taken by a man named Ashley—an artist from somewhere in New York state. He had a wife and baby. Everyone liked them; nice, homey sort of people, I understand, though Ashley himself was well—his views were a little too radical to suit some of the regular population of the Neck; though I doubt if they thought much about it till after the tragedy."

The Colonel leisurely lighted an cigar, enjoying the sense of keeping his audience in suspense. Angela stirred again, as if she would arise, then sank back in resignation as he continued, her hands tensely clutching the arm of her steamer chair.

"Well, this Mrs. Halliday was a sort of vampire. She tried her charms on the Rector of St. Anne's, but they didn't work, so she began on Ashley, and before she was through she finished him—literally. The servants said afterward that they heard her husband remonstrating; but she had a high temper, and I guess he couldn't do anything with her. Anyhow, Ashley went off in a gasoline launch with her one day, and didn't get back till morning. When he landed and went to his own cottage (probably scared

himself! It was perfectly evident, and with Mrs. Meyer. Perhaps she was one of those women who didn't care for her own sex. That might account for Gay's strange aversion to her.

Gay! Why, it was a relief just to think about her! No wonder she and Angela didn't hit it off. They were so different. Gay could talk to the men—could keep them interested (hadn't he seen Halliday himself looking at her as if he thought her a little piece of all-right?), but she didn't look at them the way Angela did. Gosh! He was glad she didn't. Not that Angela meant anything by it either. They were just—well—different, that was all.

He arose, walking a bit restlessly up and down; glancing at the clouds that were hiding the familiar stars; wondering why Angela had grasped his hand so suddenly at the mention of Painter's Neck. Yet she said that she had never heard of the place.

"I'd give a penny to know," he said quietly, then broke off with an impatient: "No, I wouldn't, either! Thunder! where are my thoughts taking me? Why, if it were Angela, if she'd been even the indirect cause of that ghastly happening, she wouldn't look at another man as long as she lived! No decent woman would. It must have been nerves, and—sympathy, that upset her so. Gee! I hope the others didn't notice." The Colonel caught on all right, but he's a gentleman. He'll keep his mouth shut."

(To Be Continued.)

Are Your Tires Safe?

When Worn, Add Strain In Summer Is Dangerous

Warm weather is here, and with it the added strain on worn automobile tires. Any motorist knows the danger of a blowout. He also knows that good tires are the best insurance against it.

A tire inflated to 35 pounds pressure and run for one hour steadily in summer will show an increased air pressure of 40 per cent. Hammer that already strained tire on the pavement with the tons of striking force which high speed engenders, and you soon see the need for caution against worn casings.

The prices are less than what they were five years ago, yet the quality has been improved. It is estimated that tires give 15 times more service today than they did in 1914, for the same money.

You may not feel you can afford new tires. But if there's any doubt about their safety, remember that new tires are immeasurably cheaper than lives, or even than the car itself which they endanger.

Motoring season is here. Are your tires safe?

New Remedy For Burns

Tan Acid Powder Successfully Used In Toronto Hospital

A new remedy for the treatment of burns has been discovered at Toronto. Physicians at the hospital for sick children have formulated a treatment which they have named tan acid.

News of the discovery leaked out at the hospital when George Sinclair, chief of the Toronto fire department, was summoned to the institution to see the results of the application on several young patients who had suffered nasty burns. Tan acid, which is a powder solution, was used successfully on a large number of children who were burned during the celebration of Queen Victoria's birthday on the 24th of May.

Fire department officials have granted permission to carry the remedy on their fighting apparatus.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Long-Lived Twins

Retired Farmers Just Celebrated Their Ninety-First Birthday

Theresa Agnes Golding and Miss Clara Golding, whose deaths at the age of 88, within a few days of each other at Rochester, were announced recently, were reported to be the oldest twins in England.

A Lincoln resident has stated that at Haxey, recently, two retired farmers, John and William Cooper, celebrated their ninety-first birthday. They are known as the "Haxey twins."

It is better to have little knowledge with humility and small understanding than greater treasures of learning with a vain self-conceit.

Sunday clubs for children are to be started in Scotland.

"SOUTH-SIDE" "MAKER'S" BUTTER
But as soon as I applied "South-Side" to my skin, the itching stopped. The "South-Side" made skin smooth, soft, and fragrant.

People Are Suffering From "Mass Pessimism"

Present Economic Condition Aptly Described By Ambassador Dawes

Ambassador Dawes, returning to the United States for a short vacation from his duties at the Court of St. James's, brings with him a phrase that aptly describes the present economic situation. We are suffering, he says, from "mass pessimism."

Some say too much is being made of the psychological side of depression. Still, it seems obvious that there is a morale in economics as well as in war. Once "mass pessimism" seizes an army it is no longer a useful fighting machine. Depression came about when "mass pessimism" seized the United States and other countries and reduced the whole world to an ineffective economic machine.

There are causes, of course, behind this "mass pessimism." When we get rid of the pessimism we shall doubtless be able to see the causes and remove them.

That seems to be about the meaning of the phrase to which Ambassador Dawes has given currency when it is considered in connection with his remark that a change to optimism is about due, and when the change comes it will usher in better business conditions. Recovery, of course, will take time, but it will be made steadily as soon as we get the malaria of pessimism out of our economic bones. —Buffalo Courier-Express.

Twelve Years Since First Ocean Flight

Alcock and Brown Made Trip In Sixteen Hours

It was 12 years ago June 15th that the world watched for reports of two airmen far out over the Atlantic on the first successful attempt to fly across the Atlantic ocean. They were Sir William Alcock, who had served in the Great War, and Lieutenant Arthur Whitten Brown, later knighted.

The two British flyers made the first trans-Atlantic flight from St. John's, Newfoundland, to Clontarf, Ireland, in 16 hours and 12 minutes. The aeroplane used was a Vickers-Vimy machine, powered with two Rolls-Royce motors of 350 horsepower.

The flight of Col. Charles Lindbergh was made May 10, 1927, or almost eight years after the flight of Alcock and Brown.

Unless worms be expelled from the system, no child can be healthy.

"Mother's Worm" is an excellent medicine to destroy worms.

Had To Have Headgear

Jewish Lawyer Wore Woman's Hat While Taking Oath

This hatless craze that causes young men to blithely about bare heads resulted in an amusing scene in the county clerk's office at Peterboro, N. H. A young Jewish student lawyer found it necessary to swear out an affidavit of search for a witness.

The first person to pass wearing a hat was a girl. Graciously the young lady removed her wide-brimmed hat, Red with embarrassment, but loyal to Hebrew tradition, the young man arrayed in the flimsy sunshade, solemnly took the oath.

The smallest fly that bites human beings is the punkie, which can literally pass through the eye of an ordinary needle.

One of the great trials of life is that when it's fine for gardening it's also fine for golf.

CORNS LIFT OFF
Pain Stops!

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from any drugist for 35c.

Ministers who preach sermons on economy must expect to get buttons in the collection.

Love turns the crank and wealth lubricates the axle.

PUTNAM'S

Eating When Tired Bad For Digestion

Body Needs Chance To Recuperate And Rest Is Better Than Food

When you are tired don't eat. Rest in times of fatigue, will do more for the digestion than something thrown into the stomach, says Hygela, the health journal.

Many people develop a habit of eating or drinking to relieve fatigue or merely to pass away the time. When a person is tired the body needs a chance to recuperate. It is not then advisable to take in quantities of food or to overstimulate the body with drinks and drugs.

Human beings need food to develop energy for daily work. The antidote to desire for food is the feeling of satisfaction. To go on eating merely because food is set before one, after satisfaction has been reached, is to overtax the system. Because people are more moderate now in their eatings and drinkings they are living longer than their forefathers who gorged themselves on food in the belief that the more they ate the stronger they would become, and who boasted of being "three-bottle men." —Regina Daily Star.

Aviators Have Narrow Escape

Almost Sucked Into Crater Of Volcano In Alaska

Man, for the first time, has flown over the crater of Alachak volcano on the south shore of Alaska Peninsula, but the suction of cold air towards the hot crater, 21 miles in circumference, pulled the aeroplane toward the pit, and only a sudden dive away from the gaseous mouth saved the ship from plunging into the hole.

A plane, piloted by Harry Blunt, with Al Mosen, mechanic, and carrying Father Bernard J. Hubbard, the "Glacier priest," after several days' waiting for good weather, soared over the world's largest active crater taking off from Chignik Bay.

Sailing over some crags, several huge eagles attacked the plane. Father Hubbard reported, sneaking from behind on a short turn and diving in. The propeller was turned over over his chips of the ocean, but, screaming, they came back for more until out-distanced.

THE RHYMING OPTIMIST

By Aline Michaels

PRAYER FOR THE JOURNEY

Oh, God of small things as of great,
Of atom as of star,
Let me not fear or hesitate
Before the things that are!
Let me unflinchingly
Always with steadfast trust,
Since I am blest in that I know
The plan is wholly just.

Oh, God of words unguessed, remote,
And farthest depths of space,
Yet not too vast a force to note
The spider's silver lace,
And heed the tiny sparrow's fall,
Let me serenely tread
Life's way, and go content in all
The paths where I am led.

Oh, God of small things as of great,
Of atom as of star,
Let me not doubt or hesitate
Till all my course is run.

Stained Glass Windows In Battleship Chapel

Dedication Ceremony Performed On Cruiser "Republie" Was Unique

The unique ceremony of dedicating a stained glass window on board a battleship was performed at Shorness by the chaplain of the fleet, Archdeacon Walter K. Knight-Akron, on the battle cruiser "Republie." "Republie" is the first ship in the Royal Navy to have her chapel adorned in this way, and the window fits into an ordinary porthole in the ship. Before the ceremony the chaplain addressed the officers and men on the quarter-deck. The designer is Archibald Nicholson. The window represents St. Nicholas blessing two sailors.

Turner Valley Oil

Deliveries of Turner Valley naphtha and crude during May totalled 118,314 barrels, as compared with 112,127 barrels in April. Sales to farmers at the wells have been continuing in fairly large volume, so that the deliveries do not represent the total production. Farmers purchase around 500 barrels daily from the various companies.

The editor of the Sault Daily Star who produces those wolf stories is out campaigning for longer belts on Pullman cars—more bunk, as it were.

Ministers who preach sermons on economy must expect to get buttons in the collection.

Love turns the crank and wealth lubricates the axle.

LOSE YOUR FAT

This sensible way

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed—you get the needed exercise.

As a result instead of pining yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and need to do to keep you in good condition. Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoon in a glass of hot water to-morrow morning and every morning—be careful of the foods you eat—take regular moderate exercise—then watch the pounds slide off.

Little Helps For This Week

"For we have great joy and consolation in Thy love."—Philemon 1.7.

Thou art adversity cannot be a sun; Thou art a healing balm, a sheltering love.

The peace, the truth, the life, the love of One, No wound, nor grief, nor storm can overpower: Gifts of a king, gifts frequent and free.

There's none like Thee, O Lord, none more like Thee, Maria J. Jewsbury.

There is no father, no brother so pitiful and compassionate as He who calls you His child. Whatever else may fail, be sure that His everlasting love will not fail. He is with you in your struggle against sin, in your search for truth, your woes and griefs, and loneliness, and trials. All your hope, all your patience, all your regard for what is excellent and imperishable, come from Him. "And as He has given you your capacity for His friendship and His likeness, He will train you and guide you to Himself if you are submissive and obedient."—Horatio N. Powers.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Telephones Per Square Mile

Britain Comes Fourth, But Tenth When Population Is Considered

It was recently suggested by the "Telegraph and Telephone Journal" that a very fair test of telephone development in a country is the number of phones to the square mile. This test, it is stated, Great Britain comes fourth on the list, with 21.2 telephones per square mile. But there is very little in it. Holland, which heads the list has 23.8 telephones per square mile; Belgium, 22; and Denmark, 21. The United States is ninth on the list with 6.6 phones to the square mile. Both Canada and Australia have fewer telephones than they possess square miles of territory. However when it comes to a test of population, Great Britain only comes tenth on the list.

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now."

I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. 74, St. Catharines, Ontario.

WAR DEBT OFFER STIRS WORLD

President Hoover has announced an offer to the world of a one year's suspension of all inter-governmental debts.

"The American government proposes," the president stated, "the postponement during one year of all payments on inter-governmental debts, reparations and relief debts, both principle and interest, of course not including obligations of governments held by private parties."

The announcement was given at the White House after receipt of informal reports from the European governments and there is a confidence at the American capital that Great Britain, France and the other allies will join in the move and forego collection of their reparations from Germany.

The effect of President Hoover's offer has been world wide, as is shown in the remarkable rise in wheat and stock prices. The offer has been well received by all nations, and a general stabilization of business is now anticipated.

The following is the text of the proposal:

"The American government proposes the postponement during one year of all payments on inter-governmental debts, reparations and relief debts, both principal and interest, of course, not including obligations of governments held by private parties. Subject to confirmation by congress, the American government will postpone all payments on the debts of foreign governments to the American government payable during the financial year beginning July 1 next, conditional on a like payment for one year of all payments on inter-governmental debts owing to the important creditor powers.

"This plan of action has been approved by Ambassador Charles G. Dawes and by Mr. Owen D. Young.

"The purpose of this action is to

give the forthcoming year to the economic recovery of the world and to help free the recuperative forces already in motion in the United States from retarding influences from abroad.

"The world-wide depression has affected the countries of Europe more severely than our own. Some of these countries are feeling to a serious extent the drain of this depression on national economy. The fabric of inter-governmental debts, supportable in normal times, weighs heavily in the midst of this depression."

PLAY THE GAME—
USE ALBERTA COAL

Toronto, June 22.—If you have a fireplace in your living room and are not burning Canadian coal you are not playing the game. If every Canadian household with a fireplace would use Alberta coal, the result would be greatly increased tonnage from the western fields. So declared E. S. Clarry, trade commissioner for Alberta, addressing the local council of women recently.

"Ontario and Quebec use fifty-six million tons of coal. The Maritimes need to sell only one and one-half million tons more to have no unemployment problems." This was pointed out by R. W. E. Burnaby, trade commissioner for the Maritimes, who also noted the fact that Canadian women are buying large quantities of imported sardines, while the largest sardine factory in the world is in New Brunswick. Often when the Canadian housewife buys new imported potatoes, these have been originally procured from Prince Edward Island. Canada imports four million dollars worth of fish, while Nova Scotia fishermen are in want. Canadians buy imported skis, when the largest ski factory in the world is in New Brunswick. They may be told that the imported skis are of especially good wood, when probably that wood in imported skis is from Canada.

Mary had a bathing suit. She carried in her purse. And every time she wore the thing it shrunk up worse and worse.

Amos: "What am a census man?"
Andy: "Say, Amos, don't you know what am a census man?"
Amos: "No, I can't get it."
Andy: "Well, a census man is one who goes from house to house and increases the population."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, June 28th, the pastor in charge.

10 a.m.—JUNIOR SCHOOL
11 a.m.—SENIOR SCHOOL
7.30 p.m.—PUBLIC WORSHIP.

The pastor's subject will be "Gold on Windows." This will be the last evening service until after the holidays.

During July and August the evening service will be discontinued and worship held at 11 a.m.

CAMPS, held at the headquarters of the Lethbridge Northern Irrigation Co. The C.G.I.T. camp for girls, 12 years and up, July 2 to 11, fee \$8.00. The C.S.E.T. camp for boys, 12 years and up, July 13th to 21st, fee \$8.00. The Y.P. camp for young people, 18 years and up, July 21st to 28th, fee \$5.50. Registrations for these camps may be given to Rev. J. W. Smith, Blairmore.

VACATION SCHOOL will open on July 6th, continuing for two weeks until July 17th. Children between the ages of four years and 12 years may attend. Two things will assist in making the school better than ever this year:

1. Will those intending to come give their names and age to Mr. Smith as soon as possible.
2. Funds are urgently needed. The promise of financial assistance will help us greatly.

ST. LUKE'S, BLAIRMORE
A. S. Partington, Vicar

Services Sunday, June 28th.—Sunday school (in parish hall) at 10 a.m.
Evening at 7 o'clock.

ALBERTA COLLEGE APPEALS

The annual report of Alberta College, Edmonton, which has just been issued shows the College to be in great need of funds, being faced with a \$5000 deficit on its last year's work.

This College is doing a wonderfully good work. It might well be named Western Canada's Opportunity School. Each year the College has made it possible for a large number of underprivileged New Canadians to acquire some knowledge of the elementary branches under most favorable influences. This seems to be one of the very few places where facilities are offered to the adult to learn English and other subjects. Year by year there is a larger enrolment of these students of foreign birth and extraction, in the commercial branches and higher academic grades. With upwards of thirty nationalities represented in the student body it is doubtful if any other Church College in Canada has such a cosmopolitan student body.

The foreign classes, however, represent only a small portion of the pupils in the College having a total enrolment of nearly 1500 coming from all over. It teaches school work up to Grade XII, bookkeeping, telegraphy, secretarial, office appliances, correspondence, music expression and physical culture. The deficit is owing to the fact, due to present economic conditions, that the College has had to give a helping hand to many deserving students. Its own expenses have been cut as much as possible by reduction of salaries and in other ways.

It may be of interest to note that the principal of Alberta College, Rev. Dr. F. Stacey McCain, was at one time pastor of the only Knox Methodist church in the British Isles at Frank, Alberta. He is now one of the most outstanding citizens of Edmonton.

If any resident of the town or dis-

trict feel that they can make a donation to the work the college is doing, it can be handed in to this office to be forwarded to Edmonton where it will be gratefully received and acknowledged in due course.

VULCAN PAIR ARRESTED
AT BLAIRMORE

Vulcan, June 23.—Sequel to the disappearance of the automobile at Vulcan on Saturday night about 11, an occurrence previously reported, was the apprehension at about the same hour on Sunday night at Blairmore of Charles "Babe" Kaiser, 21, and Constantine "C. Annie" Rhoades, 18, both of Vulcan. When the young people were missed from their homes on Sunday morning their absence was connected with the missing car, and to those acquainted with the circumstances their arrest at the mountain town was not a surprise.

Sgt. Jones, of the provincial force at Blairmore, effected the arrest. When the pair was captured it was discovered that Kaiser was parking a car, and for this offense was fined \$25 and costs, and given the alternative of 30 days in jail.

While "taking the ride," the couple in their flight of yet undetermined destination had taken six gallons of gas from Cairn Bros. at Brocket and taken the number plates from a car owned by Rev. J. W. Smith, of Blairmore, the evident intention being to replace these with the plates belonging to the stolen car and thus make their capture more difficult. For the theft of gas and plates the penalty was two months on each count and sentences to run concurrently.

Constable Bull, of Vulcan, and Fred Bennett, owner of the stolen car, drove to Macleod on Monday, and there the two prisoners were delivered to the officer and the car to its owner. The car was so damaged that it had to be left at this point for repairs. Constable Bull and the youthful transgressors arrived in Vulcan on the morning of Tuesday.

On the afternoon of the same day, Kaiser was arraigned before L. F. Dawson and W. E. Butchart, justices of the peace, charged with the theft of the car, and to the charge pleaded guilty. The sentence was 18 months in jail, and this will be served at Lethbridge. The young man did not make any statement to the court.

"Connie" Rhoades, the young woman in the case, was similarly charged before the same court on the night of that day. She, also without comment, pleaded guilty, and received sentence of twelve months in jail, and the time will probably be served at Fort Saskatchewan.

GRADE VIII. JUNE STANDING

Richard North, Margret Kubic, Eva Erikson, Carol Crisaty, Tom Crowder, Cora Claringburn, Rev. E. Walker Irene Leskovsky, Norman Davis, Enis Aschacher, Charles Hays, Doris Sartoris, Beatrice Cartwright, Augusta Canet, Vera Lord, Violet Galleotti, Mamie Hamilton, Lucy Bazille, Charles Began, Edwin Peters, Jack Pratt, Sylvia Lund, George Snood, Eda Martini, Harold Lund, Arthur Hales, Norman Picard, Noel Peters, Clifford Chappell, June Smith, Jack Scott. The above are arranged in order of merit.

SHIPPERS FIND TRUCKING
BOGS EXPENSIVE

Two shippers from Ferintosh, Alta., trucked eight hogs each to Edmonton and when the returns were made to them, the Buffalo Lake Association also figured what they would have brought if delivered to Ferintosh and shipped by rail to market. One shipper would have netted \$12.40 more for his hogs and the other \$12.20, according to the U.F.A., or an excess marketing cost of approximately \$150 per hog made up in trucking charge and 25 cents per cwt. discount which is deducted from all hogs trucked to the yards.

The late husband catches the early morning lecture.

World's Grain
Exhibition
and ConferenceFarmers Will Win
\$210,750.00 in Prizes

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to share in cash prizes amounting to \$210,750.00. Competed in 50 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

- \$2,300 a first prize for 50 pounds of wheat, 30 pounds of oats.
- \$1,500 for 40 pounds of barley, 50 pounds of rye.
- \$ 800 for 10 ears of corn.
- \$ 300 for 30 pounds of peas, 30 pounds of flax.
- 50 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising. It should be understood that all seed and grain samples, if they are not already selected, will have to be found in crops of this year. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canadian crop.

Select the closest from the prize list most suited to the crop you grow, then select your samples from the best you have.

It is best to make your entry NOW.

Your sample for exhibit must be in the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibit may be secured by writing to the Secretary of the Provincial Committee, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, will send you prize lists, rules and regulations governing competitive entries and all other information.

6 models, ranging from \$7,085 to \$11,750 at factory.

McLAUGHLIN-BUICK

22 models, ranging from \$1,190 to \$2,900 at factory.

CADILLAC

Over 31 models available, ranging from the Cadillac V-8 at \$13,720 to the Cadillac V-12 at \$21,130 and up to the Cadillac V-16 with custom body for as much as \$23,000. All prices at factory.

GENERAL MOTORS CARS

Look in the classified pages of your phone book under "General Motors" for the address of the nearest dealer.

HAVE OUTSTANDING VALUE

FOR almost a quarter century General Motors cars have been owned and driven throughout Canada under every conceivable road and traffic condition. This varied experience of almost three-quarters of a million owners has directed and aided General Motors of Canada, Limited, in the improvement of all its cars. General Motors dealers, men of substance in their respective localities, extend to you the advantage of buying on time payments through GMAC, General Motors' own low rate plan, and pledge your continued satisfaction with the General Motors Owner Service Policy. GM-3145

MILLIONAIRES AND
INCOME TAX

It must be said that the budget as a whole is a thing of shreds and patches, some of which are rather ugly. That a time of grave distress and unemployment, when the average citizen is suffering a severe shrinkage of income, and farmers are receiving for their products less than the cost of production, should be chosen by the government to cut of large slices from the taxes paid by Canada's super-rich, is astounding. Every citizen who has an income of \$150,000 per year or more will receive a reduction in income taxation. The Canadian whose income is half a million dollars will pay \$37,827 less in income tax this year than last, and the Canadian whose income is a million will pay \$116,803 less. In its income tax features, Mr. Bennett's first budget is outstandingly a budget for millionaires.

Adam Smith did not say the last word in economics, but some of the principles he laid down are as valid today as when he expounded them. One of them is that taxation should be proportionate to the taxpayer's ability to bear it. And Mr. Bennett's proposals violate, so far as the highest income tax ratings are concerned, this fundamental principle. One of the causes of the breakdown of the industrial system is the maldistribution of income. It is one of the causes of unemployment. Falling from fundamental measures, a budget which aims to improve industrial conditions must seek to lift some of the burden now bearing heavily upon several millions of the people of Canada by super-taxation of the super-rich. Mr. Bennett has adopted the opposite policy.—Editorial in the Alberta U.F.A.

NATIONAL TRACK
AND FIELD MEET

The National Track and Field Championship of Women's Amateur Athletic Federation of Canada, will be one of the features of the two day sportsfest at Wetaskiwin, August 11th and 12th, held under the distinguished patronage of His Honor Lieutenant Governor W. L. Walsh and Mrs. Walsh. Contestants from var-

ious points between the Pacific coast and far eastern Canada will participate. This is a splendid opportunity for youthful Albertans, at minimum expense, to compete for Canadian championship honors. These championships are conducted in three classes: junior, under sixteen years of age; intermediate, between fifteen and eighteen; and women's, over sixteen years. There are twenty-six events on the programme, including sprints, hurdle races, relays, jumping and weight events.

At the same time and place, the provincial junior track and field championships, sanctioned by the Alberta Branch Amateur Athletic Union of Canada, will be conducted, consisting of thirty-four events, sprints, distance runs, hurdles, relays, jumping and weights. There are three classes for junior boys, under nineteen, under sixteen and under fourteen.

The entire programme is being conducted under the auspices of the Wetaskiwin Ladies' Amateur Athletic Club and the Wetaskiwin Sports Association, the director-in-chief being Mr. B. W. Bellamy, who has been prominently identified with promotion of athletic meets in various parts of the province for several years and who is also, secretary-treasurer of the Alberta Branch, A.A.U. of C.

Special arrangements are being made to billet, when so desired, in private homes of the city, visiting athletes of under sixteen years of age. Entry forms and other information may be secured upon application to H. E. Chalmers, Box 320, Wetaskiwin, or Florence Olson, Box 438, Wetaskiwin.

An American paper comes through with the following comment: "Recently Canada slapped a friendly 40 per cent tariff on American motor cars. We will reciprocate by an affectionate repudiation. Canada will toss another goodwill bomb at us. That will compel us to scab salty increases on Canadian goods. We don't want to get in trouble with Canada. That country has us in its hip pocket. It can't starve us, but it certainly can thirst us. We may be head man with the ounces and the tops, but what can we do against a nation that still has a liquid measure."

DOES FERNIE WANT IT ALL?

For several years there has been a general understanding between the towns of East Kootenay that Cranbrook should celebrate May 24th, Kimberley July 1st, and Labor Day has always been celebrated at Fernie.

But it seems that things have changed. Fernie is not satisfied with just Labor Day, but she now usurps July 1st as well, and in so doing is going in for big prizes. Her posters state they have \$3,000 to spend in this way.

While we are pleased with Fernie's prosperity, we deplore her position to hog all the holidays on the calendar, and three thousand dollars for prizes seems like a lot of money for a town that is continually crying hard times and unemployment to spend on sports. The Kimberley Press has probably misunderstood the industrial condition of Fernie. We have been led to believe that miners there were only working two or three days a week and that conditions finally were anything but rosy. Now it appears that we have been mistaken and all her cry for government assistance to relieve unemployment was probably uncalled for.

Anyway, now that Fernie is enjoying a high wave of prosperity, it is probably fitting that she should be generous with her prizes and citizens of East Kootenay generally will be pleased with her recovery from the financial depression. — Kimberley Press.

MINISTER WIRTH WARNS
REDS ANTI-RELIGIOUS
AGITATION MUST CEASE

Berlin, June 18.—Minister of the Interior, Joseph Wirth, who, like Chancellor Bruening, is a Catholic Centrist, has warned Communists that, in his official capacity, he will "make an end" to the Communist agitation for "Godless evenings."

Minister Wirth gave his warning in the Reichstag amid derisive shouts from Radicals of the left. He pointed out that the attacks on German culture and religion launched by atheistic Communists would rouse the whole nation against the Soviet and defeat efforts to promote co-operation between Soviet Russia and Germany.

"As Minister of the Interior, responsible for public order," Minister Wirth declared, "I'll make an end of this miserable agitation for 'Godless evenings' with every means at my disposal."—EX.

SASKATOON SUSPECTS MAY
BE 'PEG BANK BANDITS'

Winnipeg, June 22.—When the three men, arrested in Calgary on charges of robbing Royal Bank messengers at Saskatoon, are returned to the Saskatchewan city for trial, Winnipeg authorities will visit them in the police cells.

The automobile in which the alleged bandits travelled to Calgary is said to tally closely with the car used in the holdup of a Royal Bank branch here in April, when the manager, Major P. B. R. Tucker, was killed. Police also allege that the description of the men resembles that of the Winnipeg gunmen.

Customer: "What's this in this soup?"
Waitress: "I don't know, sir. I don't know one insect from another."

At Grand Forks, seven Doukhobor men and two women were fined \$100 or three months in prison each for refusing to give census information. Four men will serve time in the Nelson jail, and three men and two women will go to the Okanagan prison farm.

"Mugs" are to become an antique, as far as their use in barber shops in British Columbia is concerned. Under new regulations, barbers must use shaving soap in the form of powder, liquid or paste, fresh from the container for each customer. Mixing lather in a common mug to serve more than one customer is forbidden.

CALGARY EXHIBITION
AND STAMPEDE

The Calgary Exhibition and Stampede, to be held July 6th to 11th, will be the greatest combined exhibition and old timers' celebration ever held in the west. The exhibition will include over 9000 entries, including a wonderful exhibit of live stock. The attractions and special features are the best ever arranged for.

The greatest interest is being taken in the 75th birthday celebration of Mr. P. Burns, Alberta's leading stockman, which takes place on the opening day of the Calgary Exhibition and Stampede. Letters are pouring in from near and far from those who will attend the largest birthday party ever held in Canada. Some fifty or sixty thousand people will give him a never-to-be-forgotten ovation in the great Stampede parade at 10 o'clock Monday morning, and in the evening at the grandstand the Rt. Hon. R. B. Bennett, prime minister of Canada, extends congratulations to Mr. Burns in the presence of some twenty to twenty-five thousand people. His worship, Mayor Davidson also has an important duty to perform on behalf of the citizens of Calgary, and every present will receive a piece of the largest birthday cake ever made. It is 7½ feet high, three tiers, the bottom 8 feet square, and was made at the Calgary plant of the Canadian Bakeries, Ltd. The icing required 160 lbs of icing sugar, whites of 340 Alberta eggs, 300 sugar roses, 200 sugar lilies and three gross of leaves. Ingredients in the cake are 285 lbs Alberta sugar, 304 lbs Alberta butter, 80 lbs Alberta flour, 380 dozen Alberta eggs, 12 lbs English spices, 150 lbs raisins, California and Australia, 200 lbs Australian currants, 90 lbs English mixed peel, 190 lbs French cherries, 80 lbs Ceylon almonds, 80 lbs French walnuts, 120 lbs Turkish dates, 60 lbs French assorted candied fruits and 2½ lbs Ontario salt.

A committee of Mr. Burns' friends is arranging to tender him a banquet at the Palliser hotel at 6:30 that evening, when an oil portrait of himself will be presented. The speakers will include the Rt. Hon. R. B. Bennett, prime minister of Canada, Hon. J. E. Brownlee, premier of Alberta; and Hon. J. D. McGregor, lieutenant-governor of Manitoba, and an old time friend of Mr. Burns. Those desiring to participate in this unique function should communicate with Mr. C. P. McQueen, chairman of the committee, tenfrew Building, Calgary.

A number of new features have been included in this year's Calgary Exhibition and Stampede, the outstanding one being the Grand Live Stock Review to be held Friday morning. Free tickets will be sent to all school children 15 years or under, within a radius of 50 miles of Calgary, and teachers residing outside that area may obtain tickets for their students of that age by writing to the Exhibition manager. Eight prizes will be given away, four to girls and boys 9 years or over and under 16 years and under, children under school age will be admitted free to the grounds and tickets will be given to them at the grandstand. Adults will pay the regular admission charge to the grounds, but admission to the grandstand that morning will be free to everyone. The high jump will be judged, also the heavy four and six horse teams and the live stock parade will be the finest ever seen in Calgary. The prizes have been donated as follows: purebred Dartmoor pony from the Prince of Wales Ranch by Burns & Company, Shetland pony by North Star Oil Company, two purebred English setter dogs by the Ontario Laundry Ltd., and trio of poultry from each of the following: S. P. Barth, C. J. Ford, K.C.; George Corn, and Jas. S. Smith. An attendance of at least 20,000 is expected to take part in this programme.

Another new feature is the marvelous Bari Chinese Exhibition, which was attended by 150,000 people at the Toronto Exhibition during the past two years.

The entertainment features include:

The Stampede, the greatest of them all; Running Races, Band Contest, Stampede Parade, mammoth fireworks display Saturday night, Cowboy and Old Timers' Ball, Friday evening, morning Indian Street Parades, and the special feature production "The Fiesta of 1931" with over 100 artists.

Special passenger rates of fare and a quarter will be in force from Saskatchewan, Alberta and B.C. mainland points. Hotel or private room accommodation may be obtained through the free Accommodation Booth at the C.P.R. Station. This outstanding event provides an unique opportunity for a holiday at the exhibition and at Canada's beautiful mountain resorts, Banff and Lake Louise.

Exhibition entries closed June 20th and Stampede entries closed July 2nd. Prize lists may be obtained by writing to the Exhibition offices, Calgary.

An exchange remarks: It's just as well that all this magazine reading which people have been wasting their time on is likely to be cut off. Now the women will have a chance to settle down to a little bridge, and the youngsters will have a little time to travel round at night enjoying themselves.

A TUG FOR "OLD IRONSIDES"

Washington, June 22.—When the frigate "Old Ironsides" sets out from Boston for Washington, assistant secretary Jahnke of the navy believes, ignominious or not, it will be in tow of a tug.

This, despite a number of sug-

gestions that the ancient warrior proceed under its own sailing power with its sailormen resembling as closely as possible those of 1812.

Although the ship is completely rigged with 30 sails, having an area of 12,500 square yards, Jahnke said the navy has no crew that would know how to furl and unfurl them.

WHO'S WHO

(By Gee)

F. Hedley Auld

MR. F. HEDLEY AULD, Deputy Minister of Agriculture for Saskatchewan, is chairman of the Exhibition Committee of the World's Grain Exhibition and Conference and, like many other prominent westerners, was born in Prince Edward Island. He came to the West some twenty-eight years ago and in 1906 joined the Dominion Department of Agriculture, becoming associated with W. A. Wilson in the dairy branch.

A year later Mr. Auld organized the statistical bureau of the Provincial Department of Agriculture and afterwards went to Saskatoon to take charge of the agricultural extension work of the University.

For a short time he was a member of the Mooney Seed Company and in 1914 returned to the Provincial Department of Agriculture, organizing the debt adjustment bureau. In 1916, when the late Frank Mantle, then Deputy Minister of Agriculture, went overseas, Mr. Auld became acting deputy and deputy upon the death of Mr. Mantle.

For the past two years, Mr. Auld has been president of the Regina Provincial Exhibition Association. In 1928 Mr. Auld was secretary of the Royal Grain Inquiry Commission. He is a director of the Regina Y.M.C.A. and has membership in the Canadian Society of Technical Agriculturists, the Saskatchewan Live Stock Board, and the Saskatchewan Stallion Board.

241. One Piece of Colored Embroidery Work on white or cream material.
242. Collection of Home-Made Candy, three of a kind, not less than six varieties.

Society Rules

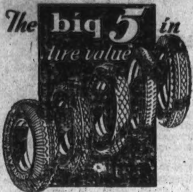

1. That this Society be called The Belleville and District Horticultural, Industrial and Poultry Society.
2. That the yearly subscription be \$2.00 per member and such levies that may be necessary to successfully carry on the Society. All members and donors are entitled to One Free Admission Ticket to the Show.
3. The annual meeting of the Society will be held with in 15 days after the show, and that notices be posted as to time and place of meeting.
4. That the Board of Directors shall consist of fourteen members and the President and Secretary-Treasurer of the Society.
5. That a quorum shall consist of five members and two officials.
6. When an executive meeting is to be called, notice of same to be sent by post-card at least three (3) days before the meeting.

Exhibition Rules

1. The entrance fee shall be 10c per exhibit in each case except Classes Nos. 1, 2, 82 and 137, which shall be 50c per exhibit.
2. All entries to be made in writing to the Secretary of the Society on or before 6 p.m. on the Saturday preceding show day. All members who have deducted their membership fee for the ensuing year will be exempted from paying the entrance fee.
3. No prizes shall be awarded unless there is one more entry than prizes.
4. No exhibit to be removed before 9 p.m. except any exhibitor from a district wishing to remove his exhibits before this time, must get permission from the secretary in writing.
5. Exhibits must be the property of the exhibitor. Produce must be grown by the exhibitor. Home grown fruits and vegetables for preserves, canned goods, etc., must be made in the establishment of the person exhibiting and classed by themselves.
6. Imported fruits and vegetables for preserves, canned goods, etc., must be made in the establishment of the person exhibiting and classed by themselves.
7. All vegetables must be clean, sound and properly prepared for exhibition. The Society reserves the right to refuse acceptance of any entry, but will state reasons for doing so.
8. All varieties of vegetables must be correctly, neatly and legibly named. Failure to do this renders exhibitor liable to disqualification.
9. On the entry of each exhibit a card will be furnished the exhibitor, specifying class, definition and number of entry; which card must remain attached to the exhibit during the exhibition.
10. The Society officers in charge will direct the placing of all exhibits and exhibitors must strictly obey the instructions given by such officers. The Society is responsible for having entries in each class.
11. Exhibits shall not in any way be allowed to carry marks that may identify their ownership.
12. No person shall act as judge in any class in which he exhibits or in any class in which he is interested for his own benefit. Judges shall hand in their awards in writing, properly signed, to the Secretary before leaving the grounds. Each judge shall ascertain from the Secretary whether there are any protests against any of his awards, in order that he may duly present to the Board his reasons for the award.
13. All protests must be lodged with the Secretary in writing within four hours after awards have been announced. The decision of the Directors in all matters decided under these rules shall be final. A deposit equal to the value of the exhibit must be made if protest is required. All deposits to be refunded if the protest is sustained.
14. In addition to the premiums offered in the prize list, the Judge may recommend additional premiums that they may consider worthy and the Board of Directors will then determine whether such premiums shall be awarded and the amount of such premiums. The Judge may also distinguish such exhibits as they consider deserving of notice, but have not received prizes, by tickets bearing the words "Highly Commended."
15. In the absence of competition in any section, or if the article exhibited be of inferior quality, the Judges shall have power and are under no obligation to consider merit. The Judges shall exercise such discretion as to whether they shall award 1st, 2nd or 3rd, or any premium.
16. Growers are heartily invited to exhibit such productions not specially mentioned in the prize list, but which are likely to be of interest as novelties or for any other cause. The Society reserves the right to award awards for such exhibits, but in some cases where the exhibitors are recommended for awards by the Judges, the Directors may grant extra awards of such amounts as they decide.
17. Any person who will attempt to interfere with or influence the Judges whilst in discharge of their duties, or who shall at any time in the premises of the Society, use any contemptuous or abusive language to any Judge in consequence of any award made by him, shall forfeit his right to any and all premiums to which he might otherwise be entitled, and may be excluded from exhibiting for one year thereafter. Judges are particularly requested to immediately report any breach of this rule.
18. Upon the discovery of any fraud, deception or dishonest practice, either in preparation, ownership, or if any misrepresentation concerning any article or exhibit, which may have been intended to affect the decision of the Judges, the Board of Directors may, prior to withdrawal of payment of any and all prizes awarded, and may prohibit any such party or parties from exhibiting for one or more years, and may also publish the name or names of such party or parties, or not, as may be deemed most expedient.
19. The Board of Directors will use every precaution in their power for the safe preservation of articles on exhibition, but will not be responsible for loss or damage. Exhibitors must give attention to their own articles during the fair and at the close of the exhibition attend to their removal.
20. Should there not be sufficient funds on hand to pay prizes in full, all prizes will be paid for pro rata.
21. Any person handling exhibits or moving tickets after having been placed there by the Judges shall be liable to prosecution.
22. All prize money for exhibits will be paid at the annual meeting of the Society.
23. Exhibition closes at 9 p.m. after which only exhibitor and helper allowed inside during the removal of exhibits.

Notes for Exhibitors

- Read the Rules carefully and note particularly the requirements of the classes in which you are competing. Care should be taken to see that the exhibits are of vegetables or blooms called for in the entry, is staged; either one more or less means disqualification.
- All exhibits must be staged in their proper classes. For instance, Pole Beans entered under Dwarf Beans, or Long Pod Beans as Broad Windsor, or vice versa, would be disqualified.
- Definition of spike or stem: Spike means without side shoots; Stems means including side shoots.
- On arriving at the Show, look for that portion of the bench marked with the number to correspond with the number of the entry which is given on your tag, and place your exhibit.
- While it is always advisable to carry a few extra blooms or vegetables to replace any not arriving in good condition, these should be kept separate from the exhibits so that there can be no possibility of an extra one being staged. These remarks apply equally to the vegetable classes, particularly such as Beans, Peas, Carrots, Parsnips, Onions, Beets, etc. The number required separately before leaving home.
- After staging, check off each exhibit before leaving. All bouquets must be tied.

OUR business is growing through giving our customers Goodyear quality in the lowest to the highest priced tire. Here's our big five: The Goodyear-built Progress Tire; the Goodyear Pathfinder; the Goodyear All-Weather High Pressure Tire; the Goodyear All-Weather Balloon; and the Goodyear Heavy Duty. We can give immediate delivery on your size. Or we'll put them right on your wheels without extra charge. And don't forget that now is the time to buy—for tire prices have never been lower.

CORBIN HAPPENINGS

At Michel on Sunday afternoon, the Corbin football squad was defeated by Michel to the score of 2-1.

Congratulations are being received by Mr. and Mrs. Nick Jacob upon the birth of a son.

Mr. and Mrs. J. Petrunek are being congratulated upon the birth of a son on Thursday, June 18th.

After a year and a half's absence, Mary Kosha, who has been a patient at the Solorium at the coast, returned to her home here on Thursday last. During her stay at the Solorium, Mary made wonderful strides toward health, and is now quite a robust girl.

Mr. and Mrs. Tony Limichuk had their month-old infant christened on Sunday.

Sam Peknik and party had a nasty accident at bridge six, on the Corbin road on Thursday. The car left the highway and, turning over, was damaged considerably. The passengers escaped without injury.

The Ladies' Aid of the United church held a strawberry tea in the Lodge Hall on Monday.

Several good catches of fish were taken from the Flathead river over the week end.

Mr. Thomas Uphill, member for this riding, was in town on Monday.

Mr. and Mrs. James Taylor were in Fernie on Sunday, to be present at the confirmation of their son, Roy Taylor.

Both Roy Taylor and Billy Warnbe, who received credits throughout the year which enabled them to pass Grade IX without writing the provincial examinations, are home for the summer holidays. These boys are students at Fernie high school.

COWLEY HAPPENINGS

Grades VIII, IX, and X, of the village school have been writing their departmental examinations this week. Arrangements have been made to exhibit an interesting display of fireworks in the Cowley sports field on the night of July 1st.

Master Gordon Swart took Grade two, violin examination at the Chardon-Meser studio at Blairmore on Tuesday afternoon.

A barn dance, in aid of the Anglican church in the Livingstone district, was held at the home of Mr. and Mrs. V. van Sandeman on Wednesday night last, when around two hundred people turned out to trip the fantastic tie to snappy music furnished by a local orchestra. A jolly time was reported. Proceeds amounted to seventy-five dollars.

On Monday evening, a near fatality took place at the ranch home of Silva Sciotte, twenty-five miles north of Cowley, when Miss Aurora Sciotte, graduate nurse, was shot by Robert Hamlin, who, when taking his gun down from the wall, discharged it accidentally, striking Miss Sciotte in the temple, bruising the side head, where several shots were found lodged. A doctor was immediately called to the scene of the accident, who on pronouncing the wounded girl to be in a serious condition, ordered that she be rushed to St. Vincent's hospital at Pincher Creek, where it is hoped by her many friends she will make a safe recovery.

Mrs. Johnson, of Springfield Mission, is a present guest of her daughter, Mrs. George Dwyer, and family, on the Jim Edwards ranch.

Mr. Archibald, of Creston, returning in a Puss-Moth plane from a trip to Toronto, leaving the queen city in the early morning on his homeward flight, struck a strong current of air at Frank, when he was forced to turn back as far as Cowley, landing near eight o'clock in the evening, where he spent the night.

Mrs. Jean Delax, after a lingering illness, passed away on Friday. The funeral, which was largely attended, took place on Sunday afternoon from the United church to the Livingstone cemetery, where interment took place. Rev. Mr. Horton performing the last sad rites. Floral offerings were lovely. Besides a host of friends, she leaves two sons and a devoted husband to mourn her loss.

Local and General Items

France has made a conditional acceptance of the Hoover reparations holiday plan.

The West Saunders School District No. 3999 has been organized, as from January 1st, 1931.

Sir George Parish, British economist, declared that the institution of the dele averted revolution in Britain.

A really nasty exchange remarks: A woman changes her mind so often that it keeps her busy speaking it.

Fishermen report fish in the South Alberta streams as being larger than they were last year at this time. And, why not?

Miss Brown, of the Royal Bank staff, is on her vacation, which she will spend at Lethbridge and Blairmore—Strathmore Standard.

Night Taxi Driver (shifting into high): "My gosh, what a clutch!"

Voice from rear seat: "Say, you keep your eyes on the road. This is none of your business."

The High River Times remarks: Doc Blayne has been forgally charged with stealing more bees than any other man. The clemency of the court is asked, as otherwise he bears quite a good reputation.

Frank Gunn, former roadhouse proprietor near Sweetgrass, Montana, convicted of the murder of Paul Carney in 1928, was sentenced by district judge R. M. Hattersley at Conrad, Montana, to 37 years and four and a half months in prison.

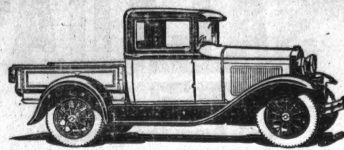

The town council of High River has instructed their delegate to the Alberta municipalities convention to urge a request that the government enact legislation, making it possible for towns and municipalities to tax bus and truck lines operating in competition with the railways. This is only fair, in the face of the fact that the railways are among the heaviest

tax payers in organized municipalities through which their right-of-way runs, and similar action should be taken by all municipalities.

In addition to a ten per cent cut on salaries of teachers employed by the Drumheller school board, a forty per cent cut of salary increases has been made by the board. Public school teachers, who in the past received an annual increase of \$50, will be called upon to take a \$20 increase instead in September. High school teachers, including the principal, have had increases sliced from \$50 to \$60 annually, while non-graduate teachers in the high school are placed on the same basis as public school teachers. The revised salary schedule drops the minimum salary of public school teachers from \$1050 to \$900 per annum.

Mr. and Mrs. G. A. LaVoie and young son, formerly of Frank and Blairmore, now of Rimouski, Quebec, are renewing old acquaintances in The Pass and are guests of Mr. and Mrs. Lynch-Staunton, north of Burnia. Mrs. Lynch-Staunton is a sister of Mrs. LaVoie. Mr. LaVoie will be remembered by the old timers of this district, being for a number of years connected with the office staff of the Franco-Canadian Collieries at Frank,

FORD DELIVERY CARS FOR MANY PURPOSES

MANY different bodies are available, adapting the Ford commercial "A" chassis for use in a wide variety of businesses. Among them are the light delivery, panel, canopy, station wagon, de luxe delivery, and many others. All of these are in widespread use, bringing Ford economy, reliability, safety and value to their owners in all parts of Canada.

Cars are the 4-cylinder engine, which develops 40 horse-power at 2200 r. p. m.; the simplicity of the electrical, ignition, cooling, lubrication and fuel systems; torque-tube drive; fully enclosed, internal expanding, mechanical brakes; and shatterless glass wind-shields on factory models.

Come in, let us show you these features, and explain how value has been built into every part of the Ford chassis.

Don't Be Critical

There are two kinds of criticism,—one that nowadays we refer to as "constructive" criticism, and the other that in common parlance we term "destructive" criticism. To be exact, the word criticism should not be employed in connection with the latter.

Criticism is a fine old English word which in its pure significance, so a recent writer has pointed out, implies carefully weighing and balancing; fine, exact, authoritative judgment. Needless to say the heading over this does not refer to such true form of criticism.

In modern usage the word has been debased, and divorced from its true meaning. Today its implication is not to take the measure of something or some one, but rather to point out, dwell upon, magnify the defects of something or some one. The tendency is not to balance, but to distort, to become cynical, to carp at, to indulge in wholesale fault-finding, to seek to destroy what is rather than to work for betterment. It is in this sense we say: Don't be critical.

In so many respects people are the product of their environment that it takes an unusually strong person to stand erect and breast the crushing tide of current opinion and prevailing prejudices, business booms, stocks and bonds mounting ever higher, when nine out of every ten people are optimists, many of them merely because it is the fashion to be so, they become extremely critical of the person who advises caution. Such a person is characterized as a non-progressive, labelled a back number, when as a matter of fact he may be more truly progressive, more far-seeing, more of a real builder than those who deride him.

Reversing the picture, we find in these present days that the vast majority of people are pessimistic and because conditions are admittedly not good they are critical of and would destroy those very institutions under which they developed and enjoyed their former prosperity, and they now denounce those who again urge caution and a carefully weighing of all the facts before taking a leap in the dark; they are impatient with and critical of all those who advise sane, clear thinking and careful, well-thought out action rather than wholesale destruction of that which has gone before.

Environment, too, has a great deal to do with our pre-judices, and prejudice is the fruitful source of a very large percentage of harmful criticism. It is only the accident or circumstances of birth that makes a person one of the white race rather than a negro or an oriental. Many a staunch Protestant who criticizes, denounces and raves over everything pertaining to Roman Catholicism might just as easily be born a devout Roman Catholic and thus be the object of the criticism and scorn he now pours out on others, or he who now insists he belongs to the only true church might have been born one of those he now regards as a heretic, or even a heathen savage.

The circumstance of birth has placed some men on thrones, or in positions of luxury and wealth, while others have been born as slaves and into dire poverty. Each man may be doing his duty as he sees it, honestly and fearlessly, striving for individual, community and world betterment. But neither the one nor the other has the right to look condescendingly on his fellow man nor deride him. They may not agree upon what constitutes world betterment, and each has full liberty of action to strive for the attainment of that in which he believes or desires. Constructive teaching and action looking to the realization of desired ends is praiseworthy and should be indulged in, but narrow, bitter, illogical criticism, purely destructive in its nature and intent, is not only deplorable and to be condemned, but, in the final analysis, it is futile in results.

What this old world needs, probably more than anything else, is its present stage of development, is a more universal acceptance of the meaning of the good old English word, "criticism." People need to readjust their thinking processes, their words written and spoken, their actions; they need to subdue their passions, curb their prejudices, look beyond their environment; in a word, in business, in government, in community life, in all our intimate social intercourse, there is imperative need for careful weighing and balancing, for fine, exact, authoritative judgment. Prejudice and selfishness require to give way to reasonableness, a willingness to recognize and study the other fellow's point of view.

That is, the world needs today, as it has always needed and always will need, the application of the Golden Rule, the spirit of co-operation, in the every day activities of life, for those activities great or small, vitally significant or relatively unimportant.

Postpone Trip Until Winter

Trans-Canada Auto Travellers Decide To Wait Until Muskies Frozen

The "Nova-Columbia," powerfully constructed auto, which is making the first trans-Canada journey by the automobile route, will lay up at Fort William for the balance of the summer. Decision to halt the hazardous trip until winter frosts harden the treacherous muskies land in the Kenora Lake district, has been arrived at by the drivers, Charles McKenzie and Gus McManus, because they cannot negotiate a mile a day under present conditions. The pioneers of trans-Canada motor travel started out from Halifax last September, and have covered 2,000 miles of the 4,000-mile trek. It is estimated the trip will not be completed before 1932, as all of next winter will be required to get through the thick bush and muskies country.

Dr. Johnson wrote his dictionary in nine years. The French Academy of 40 members spent 40 years on a rival work.

The Mother of Seven Children Used It for Diarrhoea

Mrs. Bay Drinkwater, R.R. No. 2, Hagersville, Ont., writes:—"I am the mother of seven children, and last summer one of them, 17 months old, was taken very sick with diarrhoea, and I thought she was going to die."

"My husband went 7 miles to see what my sister had given her baby, and he came home with a bottle of Dr. Fowler's Extract of Wild Strawberry. I gave the child a few doses and she was soon well again."

"My other children also had diarrhoea at that time, and I gave them Dr. Fowler's with the same results."

Manitoba Visions

Huge Power Project

Development Of Dauphin River Power Would Be Great Benefit To Province

A likely means of balancing agricultural and industrial development in Manitoba was pictured by Premier Bracken in his address to the Young Men's Association of the Winnipeg Board of Trade, recently, on "The Feasibility of the Dauphin River as a power development scheme." Properly developed, the Dauphin River project would be the largest individual development in Manitoba, he said, and would increase the power resources of the province by probably 400,000 h.p. It would round out the whole power situation in Manitoba; assure all parts of the province of a supply of low-priced hydro power for many years; facilitate the development of industry in urban centres and of municipal services in the rural centres with the possibility of adding 50 per cent. to the industrial future of the southern part of Manitoba.

Amish Mennonites Ban Radios

Classify Them With Musical Instruments Sent By Devil

Bringing the extremely strict tenets of their creed up to date, the Amish Mennonite conference of Ontario, which concluded a three-day session at the Mapleview church, Wellesville, near Kitchener, Ontario, has decreed that radio music be banned from all Amish Mennonite homes, the sect classifying radio with musical instruments which have been barred since the sect was founded.

Musical instruments, along with many other modern luxuries and even some so-called conveniences, are banned from the homes of Amish Mennonites as being instruments of the devil designed to lead the faithful away from devout worship of the Almighty. Penalty for violation of the ban on radios in the home is excommunication from the church.

Would Cancel Certificates

One Hundred and Seventy Naturalization Certificates May Be Cancelled

Cancellation of 170 naturalization certificates which were obtained fraudulently has been recommended by Judge J. G. Wallace of Woodstock, Ont., who investigated many cases in Montreal and Toronto last April. The judge is considering the report at the present time but it is expected the recommendations will be followed. Consideration also is being given to the institution of criminal charges against those involved and to deporting them from the country.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually subside. Try it and you will be satisfied.

Eats Poison Weed

Saskatchewan Boy Dies From Eating Wild Parsnips

After eating some wild parsnips, which he found near his father's farm, Gregory Kotek, son of a well-known farmer of the Foam Lake district, died before medical assistance could be obtained. No inquest was considered necessary, the youngster having told his parents what he had eaten.

Wild parsnips are deadly poison, even when cooked. Recently the University of Saskatchewan agricultural authorities issued a warning against eating this weed.

Douglas' Egyptian Liniment is a quick, certain remedy for Hoof Rot or Thrush. Four or five applications are usually enough.

War Veterans Leave Hospital

After spending 13 years in hospital receiving treatment for an arm ailment received during the Great War, Corporal Roy Brown has left Christie Street Military Hospital, Toronto, cured. Corporal Brown, who entered a hospital at Boston, Mass., shortly after the war, came to Toronto and entered Christie Street Hospital in 1927.

Business As Usual

An insurance agent had outstayed his welcome in a merchant's office, and took no notice of the many broad hints that he was making himself a nuisance. At last his victim got him by the scruff of the neck and pitched him downstairs. The man got up, retrieved his hat, and turning to the man at the top of the stairs, he said calmly, "Joking apart, what about that insurance policy?"

The farmer is not unemployed. Just unpaid, that's all.

M. H. U., 1898

Seaport Taking Form

Men Are Working Day and Night At Churchill

Two thousand men, working in day and night shifts, are employed at Churchill, terminus of the Hudson Bay Railway and Manitoba's new seaport, and the town is "sprouting a skyline," reports Hon. W. R. Clubb, Provincial Minister of Public Works, who returned from the northern port.

A seaport, equipped with all modern facilities, is taking form on the shores of the great natural harbor of Churchill, with the hundreds of men working on elevator and dock construction.

The steel fabric of the grain elevator, which will have a capacity of 2,500,000 bushels, stands out against the clear northern sky, said Mr. Clubb. Hundreds of men are busy building the dock where during the shipping seasons of future years ocean vessels will take on cargoes of Western Canadian grain and livestock to Old Country ports.

Mr. Clubb and Hon. Donald G. McKenzie, Minister of Mines and Natural Resources, inspected the future townsite where streets and lots will be surveyed and laid out this summer.

Eskimos Ride In Truck

First Automobile At Churchill Starts The Navies

Wearry pedestrians who travelled north to Manitoba's new seaport at Churchill, to escape the ever-present automobile were startled recently as they ploughed through the heavy mud and snow of the settlement the first car north of 59.

The heavy two-ton truck is being used in freighting the supplies of the Roman Catholic church from the station to their various missions along the west coast of Hudson Bay. Eskimos, northern trappers, and Indians gathered around the truck grazing with awe as it ploughed through the heavy roads. It was a considerable time before any of the Eskimos could be convinced it was safe to ride in the machine.

The young Indians and Eskimos who rode in the back of the machine were look of rapt wonder as they jolted along the trail.

Recipes For This Week

(By Betty Barclay)

TRANSPARENT PIE

- 1 cup butter.
- 1 cup sugar.
- 8 egg yolks.
- 1 teaspoon salt.
- 1 baked 8-inch pie shell.
- 2 cups shredded coconut.
- 5 cups whites.
- 6 teaspoons sugar.

Dash salt.

Cream butter, sugar, egg yolks, and salt, to taste, very thoroughly for about ten minutes. Add orange rind. Turn into pie shell. Sprinkle with 1 cup coconut, and bake in slow oven (300 degrees Fahrenheit) 30 minutes. Beat egg whites until stiff, add sugar and salt, and beat until mixture stiffens again. Pie lightly on filling. Sprinkle with remaining 1 cup coconut. Bake in moderate oven (350 degrees Fahrenheit) 30 minutes, opening oven door after first 8 minutes of baking period.

LEMON CREAM FILLING

- (Sufficient for 1 three-layer cake.)
- 1 egg.
- 1 cup sugar.
- 4 tablespoons cornstarch.
- 1 cup water.
- 1/2 cup lemon juice.
- 1/2 teaspoon grated lemon rind.
- 1 tablespoon butter.

Beat egg, add sugar and cornstarch. Mix well. Add water, lemon juice and rind. Cook in double boiler 15 minutes, stirring frequently. Add butter. Cool before spreading on cake.

Persian Balm is unrivalled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands flawlessly white. Especially recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

Have Better Chance

The family which possesses a place of land and will work it so that it will produce the things they must have to sustain life, is vastly better off than the general run of population of the towns and cities, even though they may not be out of employment now. It has been a long, hard pull lately for the farmers but they are not without something with which to pull, so is the unhappy condition of the unemployed in the cities.

When a Laxative Gripes

--- BEWARE!

ENOS "FRUIT SALT"

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury.

No laxative that causes such discomfort is safe, or necessary.

ENO'S is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, night or morning, tones up and quickens the entire system. Aids stomach, digestive, biliousness, quickly disappear.

Important Office Abolished

Nova Scotia Government Does Away With Representative In London, England

Tuesday, June 30, will see the end of the longest record of official representation in London, England, that any part of the overseas Empire has known. In 1761—one hundred and seventy years ago—John Mauer was appointed agent-general in the Empire capital by the Nova Scotia Government. On June 30 Miss Jean Iris Howard will relinquish a post terminated by the present provincial administration. Henceforth Nova Scotia's affairs in Great Britain will be handled through the Canadian High Commissioner's office, according to announcement in the House of Assembly this year.

Economy was the motive which led to the abolition of the office. The point of view of the Nova Scotia Government in abolishing the office is that the province's interests can be looked after adequately by the Canadian High Commissioner's staff, by the railways, insofar as immigration is concerned, and by the trade commissioners. The saving, will be about \$25,000 annually.

Cloud Of Insects

Visits Alaskan Island

Report From Wrangell States All Vegetation Was Destroyed

A despatch from Wrangell, Alaska, states that a cloud of insects which filled the skies to such density that they could be grasped in the air by the handful, visited and destroyed vegetation on Vank Island.

J. G. Smith, a fox farmer, said the insects were borne to the island by a southwest wind. He described them as about half an inch in length, with red legs and with a head and mouth resembling an ant.

They alight on the trees and shrubs, eating a single hole in each leaf, he added. Strawberry blossoms turned black later.

Fish that died millions of years ago are an aid to the modern geologist searching for water far underground.

Invents New Type Of Engine

Windsor Resident May Sell Rights To English Company

After 20 years of effort William Mackdory of Windsor and Detroit is ready to offer for market an engine which is declared to be revolutionary and in many ways not comparable with anything on the market. The inventor describes his product as a combination of the Diesel principle of internal combustion, that is, burning fuel oil under high pressure, and the principle of steam wherein the surplus heat of the Diesel—at present lost in water jackets—is utilized in generating a highly superheated steam. It has all the virtues of the Diesel practice and the steam principle, with none of the disadvantages, it is asserted.

When Sir Harry Britton, director of D. Napier and Sons, of England, visited Detroit recently he crossed the river for the express purpose of examining the engine. On his request, a complete flying of an engine for a mammoth plane had been forwarded to England. The English company has suggested taking over the world rights of manufacture if the engine meets with the inventor's claims. Sir Harry expressed himself as very favorably impressed.

Social Service Investigation

Professor Edouard Montpetit, chairman of the Quebec Social Insurance Commission, and four members of the commission, sailed recently for England and the continent to complete a general survey of social relief methods. Their investigations will take several months, after which they will make a report upon what he based the social insurance legislation to be enacted in Quebec.

And There Are Plenty

Someone wants to know whether a fellow who drops money on the stock market is a bull or a bear. Sometimes he is just a simple ass, says the Regina (Evening) Leader-Post.

REMNANTS

REMNANTS—3 lbs. Prints, \$1.00; 2 lbs. Silk, Velvet or Cretonne, \$1.00. Agents, dealers wanted. A. McCreery Co., Chatham, Ontario.

Cut Down Food Waste

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Appleford Paper Products

HAMILTON, ONT.

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

GOVERNMENT IS SUSTAINED IN VOTE ON BUDGET

Ottawa, Ont.—By a majority of 30, the budget passed the House of Commons, bringing to an end two weeks of debate. An amendment and a sub-amendment were introduced from Liberal and U.F.A. ranks respectively. A crowded House approved the government's proposals by a vote of 102 to 72. Previously the U.F.A. sub-amendment had been negatived by a huge majority of 150, the vote standing: for, 15; against, 165. The amendment had been defeated by 30, 70 members voting for it to 100 against.

Crowded galleries witnessed the three divisions. A good natured House indulged in songs, laughter and badinage while the somewhat slow process of registering each member's vote was gone through. When the final vote was announced the Conservative supporters broke into loud applause and cheering. The House rapidly moved into committee of ways and means, in accordance with the main budget motion, and then on the motion of the prime minister rose and "reported progress."

Echoes of the election campaign in Quebec, and allegations by Hon. Alfred Durnan, Minister of Marine, that the "war cry" had been raised to secure seats; an attack on the budget by Hon. Fernand Rinfret, former secretary of state, who claimed that the prime minister would have met defeat if he had submitted it to the people; advocacy of "salesmanship" to market Canada's wheat crop; and a declaration by J. C. Gaudin, U.F.A. member for Bow River, in favor of abandoning the gold standard, featured continued debate on the budget.

The wheat situation was discussed by E. F. Willis, Conservative member for Souris, who emphasized the fact that Canadian wheat was the finest in the world and that there was always a market for the best.

Hon. Alfred Durnan and Hon. Fernand Rinfret were head-liners in the debate. Both represent Quebec constituencies. Mr. Durnan used was who raised the question of "salesmanship" election tactics, which he claimed were responsible for sending a number of Liberal members from his province to seats in the House of Commons.

Mr. Rinfret threw back the charge of initiating the war scare in Quebec. The "war cry" had been raised by the Conservatives, not the Liberals. He assured the minister that if Conservatives dropped these tactics nothing more would be heard of "war cries" in the province of Quebec.

Pay Tribute To Heroes

School Children Decorate Graves Of Canadian Soldiers At Sherbrooke, Folkstone, England. For the fiftieth successive year, thousands of school children gathered to deck with flowers the graves of Canadian soldiers in Sherbrooke cemetery.

"While we cannot hear too much nor in too forcible a manner of war, on the other hand we cannot extol too highly the heroism, self-sacrifice and devotion, the instinctive motives that urge the manhood of the day to face inevitable mutilation and death," said Mayor J. W. Stainer, of Folkstone, addressing the school children.

Sea Cadets Give Display

Winnipeg, Man.—Delegates to the annual convention of the Navy League of Canada attended at a body the annual assault-at-arms of the Winnipeg Sea Cadets. More than 100 cadets performed for the visitors. Judges included Admiral W. O. St. John, Lieut-Commander H. C. Vares, Brig. T. V. Anderson and Col. G. H. Gillespie.

Urges Construction Of Railway

Vancouver, B.C.—Urging immediate construction of a railway connection between the Pacific Coast and the Peace River primarily as an emergency measure of unemployment relief and equally as contributing permanent relief through colonization, the executive of the On-to-the-Peace Association waited on Senator Gideon Robertson, Federal Minister of Labor.

Will Pay Visit To Canada

Windsor, Ont.—Hon. G. Howard Ferguson, Canada's High Commissioner to Great Britain, will return to Canada about August 1. It was stated at Kingston, by Hon. Thomas L. Kennedy, Ontario Minister of Agriculture. He remains in the Dominion for about six weeks, said Col. Kennedy.

W. N. U. 1899

Epidemic In Newfoundland

Five Hundred Cases Of Beri Beri Disease Have Been Reported. St. John's, Newfoundland.—As a result of a medical investigation of the south coast, especially in the vicinity of Placentia Bay, there has been revealed that a disease called beri beri, which is similar to dropsy, is extremely prevalent among the inhabitants, an estimate of more than 500 cases having been made.

Dr. Mossell, local health doctor, attributed the disease largely to the lack of vegetables in the diet. Following the tidal wave of last year the people have been mainly occupied with reconstruction work and have neglected cultivation of vegetable foods. A bulletin giving instructions regarding dieting is being issued, while the worst cases have been brought to this city for electrical treatment.

Farmers Going North Are Making Mistake

Timberland Soil In Northern Saskatchewan Usually Bad Says Professor

Saskatoon, Sask.—Farmers of the dried-out south country who are moving to timberland regions of the north are making a mistake. A. H. Joel, head of the soils department at the University of Saskatchewan, said:

"Professor Joel, in an address before a Kiwanis club luncheon meeting here recently, said: 'I don't like to see flocks of people going north. Timberland soil is bad as a rule. If, however, they settle on black grassland soil in amongst the timber they may be alright.'"

SWEEPSTAKES BILL IS OPPOSED IN THE SENATE

Ottawa, Ont.—A vigorous attack on the Hospitals Sweepstakes Bill was launched by Sir George Foster. The bill would make it legal for hospitals to raise revenue by conducting sweepstakes with the sanction of the attorney-general of any province. He concluded by moving the bill be given a six-months' holiday.

The states owed a duty to look after its aged and its poor and its sick, Sir George said. It should not delegate that duty to a gambler's chance. If this bill was made law, Sir George declared, he could see no limits to which propaganda to sell lottery tickets might not extend. With such a bill made law, he thought it was possible such degenerating propaganda might result as would "eat out the honest heart of the people of Canada."

Referring to the Irish Hospital Sweepstakes, he called it "the great Irish industry." Everything was left to chance, and neither experience, skill, reason nor ability counted.

Sensor Gilles said the majority of the people were opposed to the principle of the bill. Canada had had a disastrous period of stock gambling, and did not want a period of lottery gambling.

Sensor Lacasse thought Sir George Foster's argument would have been stronger if applied to all forms of gambling. Money lost in gambling would not have gone to charity. He favored the bill because it transferred further rights to the provinces.

Sensor Fobes was opposed to the bill and seconded Sir George Foster's motion for a six months' holiday. He sympathized with the object of the bill but not the method.

Sensor Dandurand felt the object of the bill was a worthy one but did not like the principle.

Navigation Of Churchill

Port Now Reported To Be Free Of Ice And Work On Dock Nearly Completed

The Pas, Man.—Churchill's harbor is cleared of the final remains of the ice flow and it is possible now for craft to navigate along the river for many miles. Dredging will get underway within a day or two. While whales and seals may be seen from the harbor daily.

The break-up started nearly a week ago and was brought back and forth with the tide during the past few days. Ocean craft could now steam into the bay port without danger, according to word received here from the port Wednesday. The dock is completed enough to handle ocean-going boats now.

The big dredging program at Churchill will be completed this season. About 2,500,000 yards of material will be moved under the direction of engineers there.

Work on the 2,500,000 bushel elevator is now three weeks ahead of schedule and there is little doubt that it will be completed in time to handle the initial shipments of grain through Churchill this fall.

Farm Credit Proposal Outlined By Beatty

Half Of Five Million Capital Of Company Now Subscribed

Ottawa, Ont.—Within a few weeks the organization of the Dominion Agricultural Credit Company will be completed, H. W. Beatty, president of the Canadian Pacific Railway Company, told the House of Commons committee on banking and commerce.

Designed to assist farmers in Western Canada in diversifying their operations, the company will go slowly and feel its way for the first few years. The idea, Mr. Beatty said, was derived from agricultural credit corporations of the United States which had functioned with success on similar lines in Minnesota and other states.

Up to the present about half of the \$5,000,000 capital of the company has been subscribed and when the bill now before parliament to authorize banks, loan, trust and insurance companies to invest in the securities is passed, no time would be lost in getting the scheme under way.

Government Seeking Services Of Expert

To Reorganize Livestock Industry In Canada Says Hon. Robert Weir

Ottawa, Ont.—The department is seeking the services of an expert to reorganize the whole livestock industry in Canada, Hon. Robert Weir, Minister of Agriculture, said in addressing a held day organized by the Holstein Breeders' Association. An attempt was being made to bring to Ottawa, B. C. Orr, of Aberdeen, Scotland, described by Mr. Weir as a specialist in nutrition, and "a man to co-ordinate the whole livestock industry for its commercial advantage."

Must Surrender Books

Victoria, B.C.—The attorney-general of British Columbia must surrender all books and papers of Solloway, Mills and Company which have been seized and held under the Securities Frauds Prevention Act, the court of appeal ruled in final settlement of the appeal of W. J. McGee versus Hon. R. H. Pooley.

Fewer Jobs In East

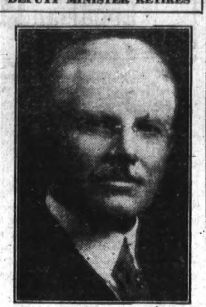

Vancouver, B.C.—Before a meeting of the Vancouver and New Westminster Trades and Labor Council, Hon. Gideon Robertson, Dominion Minister of Labor, said that, while the unemployment problem was serious in Canada, there was far less stress in the eastern part of the country than in the west.

BRITISH SCULLER'S SPORTSMANSHIP REWARDED

In recognition of his sportsmanship, Canadian rowing enthusiasts have presented a canoe to Jack Bensenford, Jr., who was eliminated in the Diamond Sculls last year when he sailed under Joe Wright, Jr. had cleared and just after the start of one of the heats. Joe Wright won the heat, but later was defeated by the German entrant, who, in turn was defeated by Jack Guest, winner of the famed trophy. The picture shows the English sculler and two companions having a try-out on the Thames at Putney. Left to right, Jack Bensenford, Ted Phelps, world's professional champion, and Bob Pearce, Australian champion, now representing Canada.

DEPUTY MINISTER RETIRES

F. C. T. O'Hara, Deputy Minister of Trade and Commerce for Canada, who has retired at his own request on account of ill-health.

Better Times Ahead

Professor Swanson Looks For Greater Period Of Prosperity Than Ever Saskatchewan, Sask.—Commenting on the "better times are coming" interview with Roger W. Babson in New York, Professor W. W. Swanson, head of the department of economics at the University of Saskatchewan, said that "Babson was correct in his view that a greater period of prosperity than the world has ever known would follow the emergence from the present depression."

"There can be no real recovery of business until primary products, especially farm products, have reached higher values. Business as a whole will depend for its recovery fundamentally on international financial and commercial co-operation," he said.

"As far as the west is concerned only a return of higher prices levels for wheat will start the process of business recovery. Wheat will tend to rise in price as the artificial surpluses are disposed of but the decline in the yield of wheat in the west this year will seriously retard recovery."

Winnipeg Is Visited By Caterpillar Plague

Insects Devour Leaves On Whole Groves Of Trees Winnipeg, Manitoba.—With whole groves of trees and shrubs of leaves, particularly in Kildonan Park and Elmwood cemetery, Winnipeg is suffering a severe visitation of the caterpillar plague.

Millions of wriggling green insects, have devoured countless leaves in preparation for their pupa stage. The public parks board attempted to wipe out the vandals with arsenic of lead, but according to George Champion, superintendent, the equipment and force available have proved insufficient to combat the hordes of tiny leaf destroyers.

May Help Wheat Sales

Ottawa, Ont.—The advance in the percentage of foreign wheat to be permitted in flour in France should increase Canada's wheat sales to that country, said Hon. H. H. Stevens, Minister of Trade and Commerce. Earlier this year only 10 per cent of foreign wheat was permitted in French flour. This was subsequently increased to 25 per cent, and now to 30 per cent.

Drop In Revenue For May

Ottawa, Ont.—Canada's revenue from customs and excise duties and excise taxes for the month of May were \$19,678,833, as compared with \$25,540,626 for the corresponding month last year. Figures were released Tuesday by the Department of National Revenue.

Cattle Ships Needed

Not Enough Ships Available For Transport To Britain

London, England.—The question of providing shipping facilities for import of Canadian cattle to Great Britain came up in the House of Commons. A member said that in view of the fact that large numbers of cattle were held in Canada awaiting shipment because there were not enough ships available for transport the president of the Board of Trade should bring the matter to the notice of shipowners who controlled ships lying idle in British ports.

G. M. Gillett, secretary to the overseas trade department, replied he was informed shipowners were not satisfied that proposals in regard to the increased shipment of Canadian cattle were such as to justify them in incurring the considerable extra expense needed to fit ships for this special trade. He understood, however, that discussions were now taking place between representatives of the shipowners and the shippers on the subject.

Funds For Idle Relief

Winnipeg Member Suggests Government Float Loan For This Purpose

Ottawa, Ont.—Floating of a national loan to provide funds to carry on unemployment relief work was suggested in the House of Commons by W. W. Kennedy (Cons., Winnipeg South Centre). He urged the continuance of the government's program of public works and as sufficient money could be obtained from revenue suggested a loan to which the Canadian people themselves should be invited to subscribe.

A fair test of the feasibility of the scheme would be the opinion expressed by excessive marine insurance rates, the provision of pensions for the blind and overhauling of the machinery of investigating applications for war pensions were other suggestions thrown out by the Winnipeg member in his speech in the budget debate.

New Record For Hawks

Aviator Travels 200 Miles Per Hour From London, England, To Rome, Italy

Rome, Italy.—Captain Frank Hawker landed here on a round trip flight from London, England, completing the trip at an average speed of nearly 200 miles per hour.

Captain Hawks made the flight in the Hudson Bay route in 39 hours and 39 minutes. He found the weather fairly good all the way, but was surprised at his own speed.

Croydon, England.—Capt. Frank Hawks brought his fast monoplane home on Monday, completing a flight from Rome in five hours flat.

STRICT ECONOMY NEEDED FOR C.N.R. SAYS MINISTER

Ottawa, Ont.—The motto of the Canadian National Railways should be "care, caution and proper economy," Hon. R. J. Manion, Minister of Railways and Canals, informed the House of Commons. While denying the charge that the government is unfriendly to the Canadian National, the minister stressed the need for careful examination of accounts, and the exercise of economy in the management of the system.

"I say that the statement that is being foolishly made by some of the press of the leader of the opposition that we are enemies of the Canadian National, is simply an untruth," Dr. Manion warmly declared. "Any man who is an enemy of the Canadian National Railways is not a good Canadian, and therefore, as I consider this a good Canadian government, and that we are at least good Canadians, we are not the enemies of the Canadian National but its friends, desirous of looking after its best interests."

While presenting facts and figures which indicated that the financial position of the government system is such that the greatest care and economy must be practiced, Dr. Manion's statement was not without a ray of hope for the future of the railway. If the depression passes, if unwise capital expenditures are eliminated and costly changes are not carried out, and if economical management is brought into play and if we and the people of this country are ready to make sacrifices for the National Railways and from the government, I think within five years there will be a very much more hopeful and cheerful picture," the minister said.

SAYS CANADA IS AT THE DAWN OF A NEW ERA

Vancouver, B.C.—Canada at the dawn of a new era, of great progress among the greatest commercial nations of the world, is the vision outlined by J. H. Woods, of Calgary, president of the Canadian Chamber of Commerce, who was a guest at luncheon of the council of the Vancouver Board of Trade.

Through courage, energy and integrity is this vision to be realized, he said. Even as the forewords of depression were in evidence, though ignored before the present crisis, so are the signs of a greater prosperity to be seen at present, he added.

"The greatest asset this country possesses is the ten millions of sturdy souls by whom it is inhabited," said Mr. Woods, "and in the quality of these souls rests the future of the land. Therefore, it is for you and me, as individuals, to see not only that we live as men of integrity and financial honesty and honor, but that we may attain in the highest measure the principles of courage and hardihood and cheerfulness by which our forefathers laid the foundations of this country."

Mobilization of the business brains of Canada to solve the problems consequent upon depressed times, particularly unemployment, is being effected by the Canadian Chamber of Commerce, Mr. Woods intimated later in the course of an interview.

"I do not know of any better means of studying this problem, any better chance to get a comprehensive view of the situation, than to visit the whole country, than will be afforded at the annual conference of the Canadian Chamber of Commerce at Regina in September," he said.

Mr. Woods explained how the executive and the organization has chosen appropriate groups of men for certain problems. Boards of trade at export centres will be asked to bring considered recommendations for the furtherance of foreign trade; cities of the wheat belt will be asked to come with conclusions on agriculture.

"The government is proceeding to get information on the 'unemployment problem,'" continued Mr. Woods. "We are proceeding to get information, too. What the government learns, we hope, will be at our disposal, and the experience of our country-wide membership will be at the disposal of the government."

"The very presence of men from all over Canada at this conference is in itself an opportunity to send them back to their different provinces with a real message."

"The Canadian Chamber of Commerce is not going to degenerate into a body for the passing of pious resolutions. We seek to do practical things. I believe that, outside of the work of the government, our organized trips to the West Indies, to Great Britain, to the Orient, to South America, are the most potent factors in the development of Canada's foreign trade."

Waiting Reply To Note On Waterways

Washington Looking For Developments When Canadian Minister Arrives

Washington.—The Ottawa government is expected shortly to reply to the United States note of last September enquiring the attitude of the administration of Premier R. B. Bennett to the proposed St. Lawrence waterway enterprise. The impending arrival in Washington of Major W. D. Herridge, Canadian minister to Washington and brother-in-law of the premier, is being looked forward to by United States officials as presaging important developments.

Escaped Injury In Plane Crash

Quebec, B.C.—Carrying supplies to his father and companions at Thudside Lake in Liard mining district, northern British Columbia, Tom Corrie, 22, crashed with his plane and after 65 hours of hiking reached Takla Lake. His plane, equipped with pontoons, fell in the forest when the engine stalled at 4,000 feet. Both wings were stripped off.

Want Full Inquiry

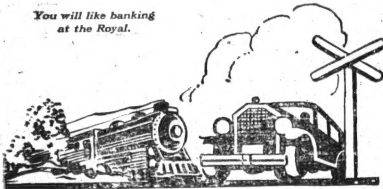

Winnipeg, Man.—Full inquiry into all circumstances in connection with the boarding by United States coastguards of the "Josephine K." on January 24 at the Canadian customs in the death of a Canadian sailor, will be urged on the Dominion government by the Navy League of Canada. This was decided in a resolution adopted at the annual convention here.

R-I-S-K!

TO-DAY, the lure of easy profits induces many to run the risk of financial disaster—to-morrow, the vision of wealth may be rudely shattered.

What will the future hold for you?—a comfortable balance in the Bank or vain regrets for hasty action.

You will like banking at the Royal.

Local and General Items

Judge A. M. MacDonald sails to-morrow from Montreal on the Duchess of Athol for Liverpool.

Born, at Kimberley, on June the 20th, to Mr. and Mrs. Alphonse Fabro, a daughter.

Mrs. Clarence Reddick, of Trail, B.C., is spending an extended vacation here with her mother, Mrs. H. G. Beau.

Miss Gladys Webster, of the Michel-Natal teaching staff, was a weekend visitor with Miss Madeleine Chardon.

Mrs. (Dr.) Donald, of Cowley, accompanied a number of her piano pupils to Blairmore for examination on Monday.

Hon. T. A. Kidd, of Kingston, Ontario, has been re-elected grand master of the Orange Grand Lodge of British North America.

School examinations started on Monday of this week and will conclude with the completion of the school term.

Happened locally: A certain housewife mistook the census man for an expected relative and gave him an affectionate kiss. That's his story, anyway.

Daniel O'Rourke, representing the Nor' West Biscuit Company, of Edmonton, spent the past three days in this district in the interest of his company.

C. K. Underwood, of Macleod, is relieving Mr. Macalister as local manager for Distributors Limited. Mr. and Mrs. Macalister are enjoying a couple of weeks' vacation.

Stanley Walker, one of the newest additions to the town of Pincher Creek, was among the many golfers from that point to enjoy playing over the Blairmore course on Sunday.

Bill Johnson was asked why he called his car Flapper. He answered: "Streamline body, swell paint job, quick pickup, all kinds of speed, keeps me broke, warns up quick and is always ready to go."

Elwood Lebeau, former Vulcan boy, was killed instantly near Vancouver recently, when an auto in which he was riding turned turtle. The four other members of the party were injured, one seriously.

Mrs. Francoise Dejax, of Cowley, aged fifty-one, died in the Coleman hospital on Friday last. The remains were taken to Cowley and were laid to rest in Livingstone cemetery on Sunday afternoon. She is survived by her husband.

M. H. Staples has been appointed crown prosecutor in the Calgary police court, to succeed the late W. H. Sellar, to take office July 1st. D. G. Mackenzie, formerly of Blairmore, has been acting as prosecutor in the Calgary police court since the death of Mr. Sellar.

The board of directors of the Consolidated Mining & Smelting Company of Canada declared a dividend of five per cent for the six months ending June the 30th, together with a stock dividend of one share for every twenty shares outstanding, payable June 15 to shareholders of record June 23.

The idea expressed by J. W. MacDonald, K.C., at the Boards of Trade convention at Waterton last week might well be applied here. It is to the effect that "The back to the land movement" should be urged, which would put many deserving unemployed families upon the land, where they could at least provide themselves with the staple necessities of life. Blairmore and Coleman were well represented at the convention.

SHACKS, one and two-room, for rent. Apply to The Enterprise.

Folks are remarking: "My, how Louis has aged!" Of course. He's an uncle now.

The Blairmore fire apparatus was out for weekly rehearsal Thursday evening last.

Sunday proved a long day for fishermen.—Of course, it was the longest day in the year.

Miss Madeleine Chardon left by last night's train on an extended tour of Canada and the European continent.

Owing to waters being slightly higher than normal, very few good catches of fish were brought in over the week end.

John Gillespie, son of the late Dr. J. J. Gillespie, of Pincher Creek, has accepted a position in the Macleod branch of the Bank of Commerce.

Wiley Post and Harold Gatty made the flight in the "Winnie Mae" from New York to Berlin in about twenty-four hours actual running time.

A successful garden party was held on the grounds surrounding the residence of Mr. and Mrs. L. P. Robert this afternoon, the proceeds in aid of the United church.

Ho! Ho! All Ye Fishermen—just what you need for that fishing trip. One light Ford Delivery Truck, engine in perfect condition, \$25.00. Apply to THE F. M. THOMPSON CO., LIMITED.

NOTICE

The Public are hereby notified that the road north of Life is a private road and is closed to traffic.

WEST CANADIAN COLLIERIES, LTD.

John R. Eustice, manager of K. I. Gour's Limited, died at Calgary last week at the age of forty-six, after a very short illness. Mr. Eustice was very well known in The Pass area, where he made periodical visits.

James E. Cassidy, "The Kid," held in Nova Scotia as an accomplice in the Midwinter murder case at Calgary, is not a native of Truro, as stated in news despatches, but was born at Westville, Nova Scotia. He has two younger brothers residing at Truro with an aunt. His parents died some years ago.

For the convenience of Pass motorists, license plates may now be secured in the district. Instead of applying to Lethbridge or other points, as in the past, plates are now available at the office of the local magistrate at the court house. It is necessary, however, to apply for drivers' licenses direct to Edmonton as heretofore.

In a long distance telephone conversation between the deputy minister of education and Mr. W. H. Chappell, of the local school board, last week, it was learned that lack of funds on the part of any pupil wishing to write departmental examinations would not prevent such pupil from writing this year. Notes are accepted from parents, payable in three months, covering the examination fees. In the face of present conditions, the department advised that no financial barrier be raised and that all pupils be given the opportunity to write.

TENDERS WANTED

TENDERS will be received by the trustees of the Hillcrest Mines School District No. 1916, for the painting of exterior of Hillcrest School, to include all walls of main buildings, outbuildings, storm sheds, etc. Full particulars may be obtained from any member of the Board or Secretary-treasurer. BLAIRMORE Phone 222 ALBERTA

The second weekly dance at the Lake Pavilion on Saturday evening was again very largely attended. With warmer weather, this resort will become extremely popular, especially with the added attraction of a launch trip around the lake.

After a blow on the chin, a French pugilist was dumb for four days and attending physicians declare that the concussion affected a nerve hitherto unknown to science. If this is true, we may yet find a way to silence talkative pests without killing them.

Even Napoleon

would never have won his battles if there had been civil war in his stomach. Physical breakdown comes from warring foods.

MOTHER'S BREAD

Is the great harmonizer. One hundred per cent food itself—helps other foods digest, too. Eat it freely—several slices at every meal—know that feeling of peace and contentment.
